

TWO-WAY RADIOS

## GP644: The Small Popular Radio

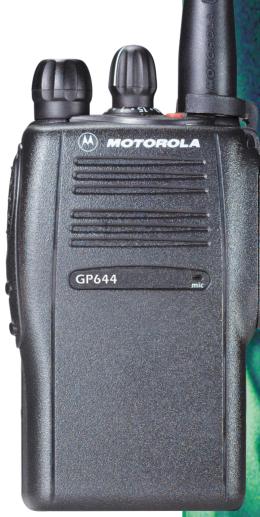

The Small Popular Radio is the simple two-way radio solution for professionals who need to stay in contact. The discreet GP644 can increase productivity, keeping users communicating, whilst allowing them to concentrate on the job at hand. With the Small Popular Radio, communication couldn't be easier.

## Operator friendly controls and features include:

- Signalling The fully compliant MPT signalling package includes MPT1343, Regionet 43 and ANN modes of operation. Radios are configurable for up to 2 personalities including Talkgroup Select and Conventional signalling.
- X-Pand™ Voice Compression and Low Level Expansion
   Crisp, clear and strong audio quality in virtually any noisy environment.
   Low level expansion allows further improvements in audio quality by reducing noise usually heard during pauses in conversation.
- Dynamic Regrouping Provides over-the-air reconfiguration of group identity.
- Missed Call Alerts
   The radio can store an incoming
   caller identity and prompt the user to
   return the call they receive.

- Wideband and Programmable Channel Spacing Provides flexibility in deployment and stocking.
- Time-out Timer
   Limits the amount of time a user
   has to continuously transmit on a
   channel. This allows for more
   efficient use of the channel.

As Dedicated As You Are

## **GP644 Portable Two-Way Radio Specifications**

General Specifications			
Power Supply	Rechargeab	Rechargeable battery 7.5V	
Dimensions: H x W x D (mm) With standard Lilon battery With high capacity Lilon battery	101.5 x 5	Height excluding knobs 101.5 x 55.5 x 30.5 101.5 x 55.5 x 35.5	
Weight: (gm) With Standard Lilon battery With high capacity Lilon battery	_	250 270	
Average Battery Life @5/5/90 Cycle: With Standard Lilon battery With high capacity Lilon battery	Low Power >9 hours >13 hours	High Power >7 hours >10 hours	
Sealing:		Withstands rain testing per MIL STD 810 C/D/E and IP54	
Shock and Vibration:		Protection provided via impact resistant housing exceeding MIL STD 810-C/D/E and TIA/EIA 603	
Dust and Humidity:	•	Protection provided via environment resistant housing exceeding MIL STD 810 C/D/E and TIA/EIA 603
